"When you're working with wood that's extremely scarce and costly, every fraction of an inch matters,"

notes Jens Lange, owner of Baltic Boat Works LLC., in Bristol, Rhode Island. Working with rare, expensive materials like teak, Baltic Boat Works uses Fowler tools to make even the smallest gains in material efficiency.

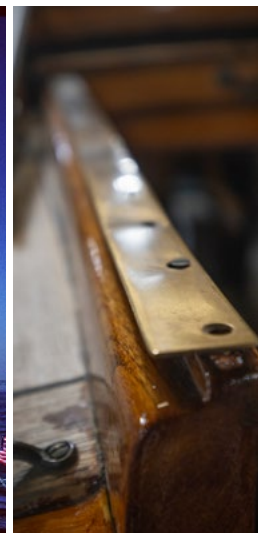

A German-born entrepreneur, Jens left the corporate automotive world in 2010 to pursue his true passion, wooden boat restoration. Starting with just a 2,000-square-foot space and a dream, Jens transformed his lifelong love of boats into a thriving business, expanding to a 12,000-square-foot facility with a staff of four, growing Baltic Boat Works into one of the premier wooden boat restoration specialists in the US.
